

Noble intentions are well, noble. To translate them into meaningful actions beneficial to individuals and the society at large calls for leadership, compassion and the willingness to collaborate with public and private entities.

Padma Bhushan Dr. Devi Prasad Shetty has done this and more in enabling affordable cardiac care to scores of poor and deprived classes.

The case study and video review reveal the scale and speed of impact of Narayana Hrudayalaya. We are sure you'll be touched.

Warmly,

### Video Review

#### Narayana Hrudayalaya

Admirable is an inadequate word. Get to know how the Narayana Hrudayalaya ecosystem functions - the balance of charitable and business objectives, the relentless innovation to drive down costs, the scale of ambition and, finally that magical healing touch only care can provide. [More](#).

### Case Study

#### Narayana Hrudayalaya: A Vision Unlimited

To implement a series of ground-altering innovations in a risky domain like healthcare demands diligent execution and the ability to attract like-minded professionals to join the journey.

This case study explains how Dr. Devi Prasad Shetty, the moving force behind Narayana Hrudayalaya, cracked the code of providing *affordable* healthcare by integrating process innovation, economies of scale, information technology and supply chain efficiency. [More](#)
